Maharashtra, India

Career Objective

Computer Engineering student specializing in Cyber Security, with hands-on project experience in Python, Flask, web development, vulnerability assessment, and database integration. Seeking internship opportunities in Cybersecurity, VAPT, Web Application Security, or Software Development.

Education

Degree/Certificate	Institute	Year / Result
B.Tech – Computer Science & Engineering	JSPM University, Pune	2025–2028
Diploma – Computer Engineering	Government Polytechnic, Hingoli	2022–2025; 76.91%
SSC	Sacred Heart English High School	2021–2022; 90%

Experience

Cyber Security Intern **2026**

Kick To Tech

- Developed a Python-Flask web application vulnerability scanner to assess common web security issues.
- Implemented checks for SQL Injection, Cross-Site Scripting (XSS), security headers, directory listing, and SSL/TLS.
- Gained practical experience in web application security testing and vulnerability assessment.

Projects

Security Activity Detector GitHub

- Developed a Python-Flask application to detect suspicious SQL Injection and XSS patterns through a web interface.
- Displayed detection results to support basic security monitoring.
- **Technologies:** Python, Flask, HTML, CSS.

Internship Finder Web Application GitHub

- Built a platform that helps students discover and apply for internships.
- Implemented registration, search and filtering, application tracking, resume uploads, and role-based interfaces.
- **Technologies:** HTML, CSS, JavaScript.

WorkConnect

- Developed a marketplace connecting users with service providers such as maids, cooks, and drivers.
- Implemented authentication, service categories, admin management, and database integration.
- **Technologies:** HTML, CSS, JavaScript, Python, MySQL.

Technical Skills

Programming: C, Java, Python
Web Development: HTML5, CSS3, JavaScript, Flask
Cybersecurity: VAPT, Web Security, Vulnerability Assessment, SQL Injection, XSS, Security Headers, SSL/TLS
Database: MySQL, SQL
Core Subjects: Data Structures and Algorithms, OOP, Computer Networks, Operating Systems
Tools and OS: VS Code, Android Studio, GitHub, Linux, Windows

Certifications

C Programming Certificate – CMIT Mumbai, 2024
One-month certification in C Programming.

Achievements

- District-level badminton player.
